Dear Dr. HAMANKIEWICZ,

Thank you for your engagement at the Symposium on "War, Migration and Health" co-hosted by the World Medical Association, the Turkish Medical Association and the Istanbul Chamber of Medicine.

We have enjoyed a number of high-class presentations and moderations including yours which helped to make the conference a true success. We had more than 150 registrations of very engaged colleagues from Europe, Asia and Africa. The discussions have been lively and of high quality and resulted in a communiqué that gives a tangible result to the conference.

We very much hope that you have enjoyed this Symposium in Istanbul as much as we did and

We remain with our gratitude for your participation  
And our best wishes
